

## PERMISSION AND AUTHORIZATION FORM

I authorize Blooming Health LLC, to perform evaluation and set up a program for the purpose of enhancing my health. I understand that all recommendations concerning diet, lifestyle changes, suggested dietary supplements and homeopathic remedies are meant to naturally correct body imbalances and to improve one's physical and emotional wellbeing. They are not intended being a substitute for regular medical care.

I understand that Blooming Health LLC doesn't diagnose or treat any disease. No promise or guarantee has been made regarding the results of the evaluation or of the proposed program. A chronic health condition usually takes several years to develop and can take many months to heal. For best results, please, commit to regular visits every 3-4 weeks for a period of 6-12 months to observe improvement.

I understand that natural healing sometimes provokes a healing reaction. This is not a side effect. A healing reaction means your body is trying to eliminate toxins (that were stored in your body probably for a very long time) and it can manifest as temporary aggravation of your symptoms, or new symptoms may appear. Such symptoms usually disappear within few days. If the healing reaction is severe, decrease the recommended doses of supplements to ¼ for few days and increase water intake. Then return slowly to the full dose over the period of several days.

### **Privacy Statement**

All the information you provide Blooming Health LLC about your health is kept private unless you request the release of information to a third party in written. If another member of your family is in our care, you need to discuss confidentiality issues with this family member prior to starting my services. Confidentiality will be broken if there are signs of abuse to a child/elderly person or if a person seems to be in imminent danger of hurting self or someone else.
